Surescripts Medication Information Consent

What is Surescripts?

Surescripts operates an electronic network which securely connects pharmacies, care providers and benefit managers by allowing for the private electronic movement of current and historical clinical health information between different health systems, including ours here at Tohickon Internal Medicine. This information includes accurate histories of dispensed patient medications.

What is Medication Information and how is it used?

The Surescripts Medication History service allows healthcare professionals to access a patient's dispensed medication history across different unrelated prescribers. This service can be used in the course of providing routine health care as well as during emergencies. In both cases, accurate patient medication information enables healthcare providers to make safe, accurately informed treatment plans with their patients.

Consent

I acknowledge that by signing this form I consent to Tohickon Internal Medicine accessing and receiving my medication history data from the Surescripts network. I understand I may revoke this consent at any time by providing written notification to Tohickon Internal Medicine.
